EXPERIENCE

SENIOR SOFTWARE ENGINEER @ XTEACH

April 2016 - Currently

Team leader of an e-learning product based on a LAMP Cloud application. PHP7 with CakePHP and MySQL as Back technologies. HTML5, CSS3, LESS, JS, jQuery and React.JS shape the Front stack. GIT as VCS. SCRUM and Kanban among Agile Development methodologies.

FULL-STACK ENGINEER @ ALISYS

August 2015 - April 2016

Full-stack engineer developing a telecommunications product oriented to customer service departments. Cloud application developed in PHP with CodeIgniter and a MySQL DB. Front stack shaped by HTML5, CSS3, JS and jQuery.

FULL-STACK ENGINEER @ GOBERTIA

November 2014 - August 2015

J2EE and Liferay based Cloud application oriented to boards of directors. Postgres DB and Lucene search for a massive storage of important files.

CEO & FOUNDER @ BOOKIESHUNTER

October 2011 - Currently

Bookieshunter.com is the website that I created while I was in College. Here I provide Sports Betting info to the customers in order to help them to win. I have learned a lot developing and boosting this business without any investment. Thanks to this site I could pay the college and other courses to improve my skills while mixing my hobby (sports) with my dream for have my own business.

EDUCATION

COMPUTER SCIENCE @ UNIVERSITY OF OVIEDO

September 2008 - June 2013

- ❖ Best qualification in Thesis developing a C# product for retailers.

COURSES & CERTIFICATES

The list of courses is really large. They helped me to understand patterns, methodologies and new languages. The three courses that helped me more are: SCRUM in Platzi, React.JS in Udemy and Business Creation in the University of Oviedo.

By the other side I obtained certifications about the day-to-day skills like PHP, Javascript, Agile Methodologies or Google Analytics.

I don't stop learning so my skillset is permanently growing.
